CHIROPRACTIC FEES: Initial visit: \$70.00
Subsequent visit: \$50.00 (adult)
\$40.00 (senior)
\$30.00 (students, children)

Procedures for New Chiropractic Patients

Thank you for arriving early for your initial visit. This will allow you to read and complete the information that follows. Please remember that all information is confidential. The first form gains information about your "*Health Record*", past and present, and the second form includes information about chiropractic and chiropractic treatment. It is to be read and then signed in the presence of your chiropractor.

Upon completion of the following forms, your initial "*Consultation*" with the doctor will take place to discuss your health concern. Following this you will receive a "*Chiropractic Examination*" to determine if chiropractic care is appropriate for you. Finally, your doctor will discuss with you your examination results and whether or not your case is appropriate for chiropractic care. If appropriate, your recommended treatment program will be explained to you. Chiropractic care will begin and continue as scheduled until your condition has been fully corrected, or until the *maximum possible improvement has been obtained*.

Please feel free to ask questions at any point throughout your chiropractic examination or visits.

Thank You.
